Independent Auditor's Report

The Board of Directors The Florida Wildflower Foundation, Inc.

Opinion

We have audited the accompanying financial statements of The Florida Wildflower Foundation, Inc. (a nonprofit corporation), which comprise the statements of financial position as of September 30, 2023 and 2022, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Florida Wildflower Foundation, Inc. as of September 30, 2023 and 2022, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Florida Wildflower Foundation, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Florida Wildflower Foundation, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Florida Wildflower Foundation, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Florida Wildflower Foundation, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Schafer Tschage, Whatemat, Mitchell & Shuilan, LCP

Notes to Financial Statements

Year ended September 30, 2023 and 2022

(1) Organization and Summary of Significant Accounting Policies

(a) <u>General</u>

The Florida Wildflower Foundation, Inc. (the Organization) was incorporated in Florida on February 15, 2001 as a not-for-profit corporation whose purposes are exclusively charitable and educational within the meaning of 501(c)(3) of the Internal Revenue Code.

The vision of the Organization is to increase the availability, demand and visibility of Florida native wildflowers by supporting research, education and planting. Florida native wildflower refers to flowing plant species native to Florida, with emphasis on herbaceous annuals and perennials.

The Organization is supported primarily through use proceeds from the sale of Florida State Wildflower specialty license plates.

(b) **Basis of Accounting**

The financial statements of the Organization have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables and other liabilities.

Unconditional promises to give (pledges) are recorded as receivables and revenue, and the Organization distinguishes between promises received for each net asset category in accordance with donor restrictions, if any.

Net assets and revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

- Net assets without donor restrictions---Net assets that are not subject to donor-imposed stipulations.
- ♦ Net assets with donor restrictions---Some donors impose restrictions that are temporary in nature, for example, stipulating that resources be used after a specified date, for particular programs or services, or to acquire buildings or equipment. Other donors impose restrictions that are perpetual in nature, for example, stipulating that resources be maintained in perpetuity. Laws may extend those limits to investment returns from those resources and to other enhancements (diminishments) of those resources. Thus, those laws extend donor-imposed restrictions.

(c) Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid investments purchased with a maturity of three months or less.

Notes to Financial Statements

Year ended September 30, 2023 and 2022

(1) Organization and Summary of Significant Accounting Policies - Continued

(d) <u>Unconditional Promises to Give</u>

Unconditional promises to give, less an allowance for uncollectible accounts, are recognized as revenues in the period received. Pledges receivable are discounted using a market discount rate to present value for collections expected in future years, unless such discount is de minimis. Accretion of the discount in subsequent years is also recorded as contribution revenue.

(e) <u>Investments</u>

Investments are generally recorded at fair value based upon quoted market prices, when available, or estimates of fair value. Donated assets are recorded at fair value at the date of donation, or, if sold immediately after receipt, at the amount of sales proceeds received (which is considered a fair measure of the value at the date of donation). Investments held in Board designated funds at September 30, 2023 and 2022 consist of mutual funds and marketable Exchange Traded Securities (ETF).

(f) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(g) Property and Equipment

Property and equipment are stated at cost. Depreciation is provided on straight-line method over the estimated useful lives of the assets which range from 5 to 10 years. All property expenditures in excess of \$1,000 are capitalized; maintenance and renewals are charged to expense as incurred.

(h) Financial Instruments Fair Value and Concentration of Business and Credit Risk

The carrying amount reported in the statement of financial position for cash and cash equivalents, accounts receivable, accounts payable and accrued expenses, approximates fair value because of the immediate or short-term maturity of these financial statements. The carrying amount reported in the accompanying statement of financial position for mortgage payable approximates fair value because actual interest rates do not significantly differ from current rates offered for instruments with similar characteristics.

Financial instruments, which potentially subject the Organization to concentrations of credit risk, consist principally of accounts and pledges receivable, which amount to approximately \$938,000. The Organization provides various types of services to qualified individuals and generally does not require collateral. Grants and contracts receivable, as applicable, arise as a result of the

Notes to Financial Statements

Year ended September 30, 2023 and 2022

(1) Organization and Summary of Significant Accounting Policies - Continued

(h) <u>Financial Instruments Fair Value and Concentration of Business and Credit Risk</u> - <u>Continued</u>

agreements with third parties to provide specified services. The grants and contracts are monitored on a monthly basis and are not collateralized. The Organization maintains its cash balances at certain financial institutions in which balances are insured by the Federal Deposit Insurance Corporation up to \$250,000.

(i) <u>Contributed Services and Supplies</u>

Contributed professional support services are included as a component of in-kind revenue and expenses in the accompanying statements of activities and changes in net assets at their estimated fair value at the date of receipt. The estimated fair value of such services contributed during the years ended September 30, 2023 and 2022, amounted to \$0 and \$142, respectively. In addition, there are many volunteers who contribute their time to assist the Organization in its program operations, administrative functions and fundraising campaigns. These volunteer services are not valued or reflected in the accompanying statements of activities and change in net assets.

The Organization receives various contributed materials and supplies that are used for its programs. The estimated fair value of donated materials and supplies is included as a component of in-kind revenue, and program services expense in the accompanying statements of activities and changes in net assets. The estimated fair value of donated materials and supplies during the years ended September 30, 2023 and 2022, totaled \$3,913 and \$11,088, respectively.

(j) Income Taxes

The Florida Wildflower Foundation, Inc. is exempt from payment of federal and state income taxes under Internal Revenue Code Section 501(c)(3). In addition, the Organization has been determined by the Internal Revenue Service not to be a private foundation within the meaning of Section 509(a) of the Code. Consequently, no provision for income taxes has been included in the accompanying financial statements.

The Organization has adopted the provisions of FASB ASC SubTopic 740-10, (FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*). These provisions clarify the accounting for uncertainty in tax positions and prescribe guidance related to the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The tax benefit from an uncertain tax position is only recognized in the statement of financial position of the tax position is more likely than not to be sustained upon an examination, based on the technical merits of the position. Interest and penalties, if any, are included in expenses in the statement of activities. As of September 30, 2023 and 2022, the Organization had no uncertain tax positions that qualify for recognition or disclosure in the financial statements.

Notes to Financial Statements

Year ended September 30, 2023 and 2022

(1) Organization and Summary of Significant Accounting Policies - Continued

(j) Income Taxes - Continued

The Organization's income tax returns are subject to review and examination by federal authorities. The Organization is not aware of any activities that would jeopardize its tax-exempt status. The Organization is not aware of any activities that are subject to tax on unrelated business income, excise or other taxes. The tax returns for the fiscal years ended from 2020 to 2022 are open to examination by federal authorities.

(k) Functional Allocation of Expenses

The costs of providing programs and administration of the Organization have been summarized on a functional basis in the accompanying statement of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited. The allocation of expenses according to function, including payroll and occupancy costs which cannot be directly attributed to specific functions, is based on estimates by the Organization's management, of the time of employees involved and of percentages of assets utilized.

(I) Grant Expense Recognition

Grants awarded are disbursed in installments as grant requirements are completed by the donee. Grant expense is recognized as disbursement.

(m) <u>Subsequent Events</u>

In preparing these financial statements, the Organization has evaluated subsequent events and transactions for potential recognition and disclosure through January 3, 2024, which is the date the financial statements were available to be issued.

(2) Liquidity and Availability

As of September 30, 2023, the Organization has \$1,382,221 of financial assets available within one year of the balance sheet date to meet cash needs for general expenditure. The Organization has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due.

The following table reflects the Organization's financial assets as of September 30, 2023 reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date.

Cash and cash equivalents	\$ 860,817
Investments	521,404
Total financial assets	\$ 1,382,221

		· · · · · · · · · · · · · · · · · · ·

(4) Financial Instruments and Fair Value Measurements

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell an asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ACS 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels.

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the organization has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the organization's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Notes to Financial Statements

Year ended September 30, 2023 and 2022

(4) Financial Instruments and Fair Value Measurements - Continued

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into distinct levels of the fair value hierarchy. In such case, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. All are considered Level 1 Investments. There have been no changes in the methodologies used at September 30, 2023 and 2022.

Mutual funds: Shares of mutual funds are valued at the net asset value (NAV) of shares held by the Organization and are valued at the closing price reported on the active market on which the individual securities are traded.

Exchange traded funds and alternative investments: Shares of exchange traded funds are valued at the closing price reported on the active market on which the individual securities are traded.

(5) State Wildflower Specialty License Plate Fees

Florida Statute section 320.08058 (27) establishes a \$15 annual fee (plus registration fees) for the Florida Wildflower Program administered by The Florida Wildflower Foundation, Inc. These funds are segregated into separate bank accounts for reporting to the State of Florida. A maximum limit of 15% of use fees collected is set for administrative and marketing expenses. The total of Specialty License Plate Fee monies (Cash and Marketable Securities) on hand amounted to \$490,203 and \$427,678 at September 30, 2023 and 2022, respectively.

(6) Gary Henry Endowment for the Study of Florida Native Wildflowers

In prior years, the Organization has donated to an external endowment fund at the University of Florida who is the endowment custodian. The endowment fund is not under the control of the Florida Wildflower Foundation, Inc. The contributions were treated as an expense and the balance of the endowment is not carried as an asset. The endowment asset balance amounted to \$551,696 and \$564,408 at September 30, 2023 and 2022, respectively. No contributions were made for the years ended September 30, 2023 and 2022.

Notes to Financial Statements

Year ended September 30, 2023 and 2022

(7) Concentrations

The Organization receives a significant portion of its revenues from the sale of specialty license plates in the State of Florida \$482,560 or 77% of total revenues and \$402,629 or 76% for years ended September 30, 2023 and 2022, respectively.

The Organization maintains its cash balances at financial institutions in the Central Florida area which, at times, may exceed amounts covered by Federal Deposit Insurance Corporation (FDIC) insurance coverage (\$250,000 per institution).
